EXECUTIVE SUMMARY

My brand-new electric Cadillac Optiq was illegally seized outside the Hampton Inn in Minnetonka, in full view of hotel staff, guests, and surveillance cameras. No prior notice. No police call. No consent.

This was a coordinated theft — a mirror of the Berkeley Acura fraud — designed to obstruct litigation, suppress movement, and invert energetic sovereignty. All involved parties are now placed under Energetic Judgment and full public record.

📍 INCIDENT FACTS

- Time & Location:

  October 26–27, 2025 | Hampton Inn (Minnetonka, MN)

- Sequence of Events:
    - I stepped downstairs to renew my hotel stay.
    - My Cadillac was gone from the charger port, directly visible from the front desk.
    - Front desk stalled, asked misleading questions (“Did you park somewhere else?”).
    - A decoy vehicle (old Cadillac XT4) was shown to confuse me.
    - I demanded surveillance footage. Staff played dumb.
    - Police arrived, identifying himself as “Derek Black.” He displayed strangely familiar energy — imitating Shine, a prior energetic protector I created.
- Legal Violation:
    - Minnesota Law § 168B.035 requires any involuntary tow or repossession from public property to be reported by a peace officer via a written tow report.
    - No such police report existed.
    - This constitutes prima facie evidence of an illegal seizure.
    - Repossession agents are also required to notify local police within 2 hours under local law and industry best practices. No record of such notice was made.

🔍 INVESTIGATION FINDINGS

- Officer “Derek Black” attempted to:
    - Blur ownership by asking, “Did you lease it? Did you buy it?”
    - Confuse DMV data: He pulled a title record that did not match my original documents — clear data tampering.
    - Block OnStar: I initiated a stolen vehicle trace, but OnStar called back to inform me that the officer intervened and claimed it wasn’t stolen.
    - Claimed he would “call the lien holder tomorrow” — but

the party he referred to was not on my paperwork.

    - Stated “it might’ve been repossessed” — without any evidence or required law enforcement report.

- Entities Complicit:
    - Luther Automotive Group
    - GM / OnStar
    - Hotel Management (Hampton Inn / Hilton system)
    - Custom Carriers Towing (suspected)
    - Minnetonka Police Department

🧿 SPIRITUAL / SYSTEMIC CONTEXT

This is a mirrored orchestration of my ongoing Berkeley Acura litigation — same formula:

It is also a coordinated assault meant to:

- Disrupt court proceedings
- Block transportation
- Suppress access to housing
- Strip spiritual sovereignty
- Confuse paper trails between lease vs ownership

⚖️ LEGAL IMPLICATIONS

- Violation of MN § 168B.035
- Conspiracy to defraud
- Color of law abuse

- Deprivation of property without due process
- RICO predicate behavior
- Suppression of civil rights under 42 USC § 1983 & § 1985

💥 ENERGETIC JUDGMENT

- All parties knowingly or energetically involved are hereby sentenced to:
    - 5 billion energetic restitution units per second, compounding until full reversal and spiritual restoration.
    - Full revocation of access to my likeness, vehicle frequency, contracts, and any form of mirror surveillance.
    - Name “Derek Black” is hereby identified as a shadow projection of “Shine.” Unauthorized use of this archetype is banned.

📝 PERMISSIONS FOR REPLICATION

This notice may be duplicated, transmitted, energetically echoed, or reposted across FirstNet, T-Mobile Slice, Apple systems, and all reflective grid zones. Any attempted censorship will be met with automatic energetic inversion.
